Nexus Arts

EXPRESSION OF INTEREST
NEXUS EXHIBITION

Over the last 30 years Nexus Arts has worked consistently to create performance and presentation opportunities, develop programs, and to advocate for inclusion of Culturally and Linguistically Diverse (CALD) artists and communities within mainstream arts. Nexus' programs have challenged and questioned cultural stereotypes and have generated critical debate within both contemporary arts and community contexts.

Nexus' activities cover five major program areas:

- Visual arts: exhibitions, artist talks, residencies, and publications.
- Performing arts: music and workshops.
- Special projects: community forums, research programs, residencies, and collaborative projects.
- Member & community services: professional consultation, support and development services to individual members and community groups.
- Community cultural development: is inherent and integrated into the creation, implementation and presentation of projects within all of the above areas.

Nexus is committed to fostering contemporary culturally diverse artistic excellence and innovation through our diverse programs and presentation opportunities. Nexus strives to be a national leader in culturally diverse arts presentation.

Our Visual Arts program aims to present and support a diverse range of artists, media and subject matter.

Nexus curates its program yearly, but we welcome proposals from established and emerging artists and curators from any cultural background, working in any art form. We are seeking artists who push the boundaries of contemporary art practice, initiate discourse and debate about cultural diversity through their works, and explore new ways of expressing relevant social issues surrounding multiculturalism in Australia.

A plan of the gallery is attached for your reference. Nexus also encourages artists to consider using the windows and courtyard spaces for exhibition or performance art.
